

Pre-school

We run eight pre-schools and have an average of 100 children registered at each one, that's 800 children each day who receive a nutritious sweet potato meal. Our budget includes not only the cost of planting the sweet potato vines but also allows us to pay the pre-school teachers a small amount of money to care for the plants, harvest the sweet potatoes and to cook them each day for the children.

Pre-school maintenance and resources are really important too to ensure the children are learning in safe and fun environment, and with stimulating toys and equipment.

**A donation of £5 (\$7) sends a child to pre-school for a month.
A donation of £60 (\$80) sends a child to pre-school for one year.
Both donations include a meal of sweet potato every day.**
