

# Healthcare

Helping to support healthcare in our local area

## Disabilities and Rehabilitation Project

- Matilda is the project coordinator who carries out home visits and group sessions
- Around **140 children** are registered with around **80 receiving regular support**
- Devices and therapy aids are often **made from wood and local materials**

## Family Planning and Sexual Health

- We're helping to change **peoples' views on family size**, which not only impacts the well being of families, but also contributes to **better conservation of natural resources**
- We are working in **local schools, with different community groups and families**

## Mwaya Dispensary

- The dispensary was **built by Ripple Africa** but is now a Malawi government facility
- This local dispensary provides **critical support to around 10,000 people** with about **70 patients** treated here each day

## Rural Clinics & Hospital

- We support **Kachere Clinic, Kande Clinic and Chintechche Rural Hospital**
- At the clinics we have built **new treatment rooms** and at the hospital we **refurbished the theatre and x-ray room**
